

Glossary of Terms

Below are new words for our Glossary of Terms based on AB Barlow's activities the last couple of weeks. To see all the terms from AB Barlow's past activities, please scroll down to page 2.

Battle of Trafalgar – a major naval victory for the British over the combined forces of the French and Spanish during the Napoleonic wars

Boarding Pike – a long-handled spear-like weapon used for repelling an enemy boarding party

Cask – a barrel used for storing provisions aboard ship

Dirk – a very short sword, traditionally carried by midshipmen in the Royal Navy

Docking – the act of poking holes in biscuits prior to baking to prevent them from rising and to allow the moisture to escape

Dunderfunk – a foodstuff made of pounded biscuit, molasses, beef fat and water mixed together and baked brown in a pan

Gunwale – the top edge of a ship's hull

Hardtack – one of many names for an unleavened biscuit made of flour and water, and sometimes salt, eaten at sea by Sailors

Marlinspike – a tool used for separating strands of a rope, untying knots that have seized up under pressure or as a handle for pulling lines tight

Midshipman – the most junior commissioned officer rank in many navies

Purser – officer-in-charge of the ship's finances, including purchasing provisions such as biscuits, salt, meat and rum

Sea Chest – a large box used by Sailors to hold their worldly possessions; sea chests were much more common in the merchant and whaling services than in the Navy, where space was limited, and Sailors generally used sea bags instead

Scotch Coffee – burnt biscuit dissolved in hot water

Spike Hitch – a simple knot for transforming a marlinspike into a handle for pulling line tight

Whipping – a type of binding used on the ends of rope to prevent them from fraying or unraveling

USS Constitution – the oldest commissioned naval vessel now afloat; one of six frigates authorized by the Naval Act of 1794; the ship is also known as Old Iron Sides

Weevils – small beetles known to infest ship's biscuits

Words from Previous Glossary of Terms

Aft – near the stern; toward the rear of the vessel

Aft Cabin – often called the captain’s cabin, a large cabin at the stern of the vessel

Anchor – the device by which, when dropped to the bottom, the vessel is held fast

Binnacle – a box near the helm containing the compass

Boom – a spar used to extend the foot of a fore-and-aft sail or studding sail

Bow – the front of the ship, the rounded part of a vessel forward

Bowsprit – a large and strong spar, standing from the bow of a vessel

Chafing Gear – pads, mats, ropes and other materials tied around pieces of rigging to protect them from rubbing on spars and other parts of the rig

Deck prism – a prism of glass fitted into the deck to allow light into the compartment below

Fore – toward the front of the vessel, used to distinguish the forward part of a vessel or things in that direction

Foxes – pieces of scrap line made by twisting together several strands or yarns

Guns – armament with a naval carriage; the original *Providence* had 12 four-pound guns and 14 small rail guns

Hand, Reef & Steer – traditional qualifications of an able seaman, to hand is to take in or furl a sail and to reef is to shorten sail and to steer is to take a turn at the helm

Helmsman – the Sailor stationed at the ship’s helm (wheel) in charge of steering and keeping a straight course

Jibboom – the boom rigged out beyond the bowsprit to which the tack of a jib is lashed

Main deck – the largest deck on a vessel

Main hold – cargo hold, also holds provisions, spare parts and sailors

Marline – light, two-stranded line; often tarred and used for seizing

Marlinespike – a tapered metal spike used to separate strands of rope, untie knots and as a handle for hauling away on seizings, whippings, etc.

Mast – a spar set upright from the deck to support rigging, yards and sails

Merchant Service – the industry concerned with commercial shipping ventures (i.e., non-military)

Port – the left side of a vessel, looking forward, used in place of “larboard”

Quarter Deck – raised deck toward the stern where navigation and command of the vessel take place

Rating – denotes a Sailor’s rank, responsibilities and rate of pay (i.e., able seaman, ordinary seaman, boy, etc.)

Rigging – the lines and ropes that hold the masts, spars and sails

Sail Making – the work of mending, replacing and sewing sails; the sail maker would often advise on how best to set and trim sails

Seizing – method of binding two ropes or objects together involving wrapping them tightly with line

Shrouds – a set of ropes reaching from the mastheads to the vessel’s sides to support the mast

Spar – the general term for all masts, yards, booms, gaffs, and other such timbers

Splice – weaving together to strands of separate ropes to form one longer rope

Starboard – on the right side of the boat, looking forward

Stern – the aft end of a vessel

Tiller – a bar of wood or iron put into the head of the rudder, by which the rudder is moved to steer the vessel

Watches – division of labor aboard ship; the ship’s company is broken into several (usually three) watches, which take turns sailing the ship, standing by and resting

West Indies – the Caribbean, including the Greater Antilles, Lesser Antilles and the Lucayan Archipelagos

Windlass – the machine used in merchant vessels to weigh the anchor

Yards – long spars affixed horizontally across the masts, which hold up the ship’s square sails
